Continuation of Substance of Interview including description of the general nature of what was discussed: On December 22, 2003, the examiner contacted applicant's representative to propose possible amendments to claim 1 that would overcome remaining 112/2 issues and place the application in condition for allowance. On January 5, 2004, applicant's representative indicated that she was still in discussions with applicant, and did not expect a reply from applicant prior to the examiner's deadline for action in the application, which is after final. It was agreed that the examiner would proceed with preparation of an Advisory Action, and that allowable claim language would be discussed again in the near future..
